## Product description

The decorative fabrics in the REFLECTION collection present a fascinating jacquard story that is unrivaled in its extraordinary structures. The interplay of these fabrics is truly fantastic and creates a particularly impressive effect when combined. The modern and irregular jacquard patterns are reminiscent of broken surfaces and are interpreted differently from viewer to viewer. At first glance, Globe is reminiscent of a gridded map of the world, its surface reminiscent of a bird's eye view of the earth. Here, broken-up surfaces create an exciting structure in which the satin-colored background repeatedly comes to the fore. The collection also includes Moss and Shine. The fabric width of over 300 cm allows for a high-quality finish in hotels and on cruise ships. As environmentally conscious production is important to us, recycled polyester is used in the manufacture of our REFLECTION collection. Special colors are possible from a minimum quantity of 300 m.
