

Shine

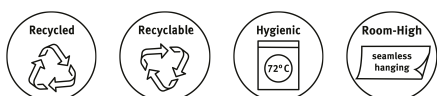

Item number 28324, KMAT 61000249

Product description

The decorative fabrics in the REFLECTION collection present a fascinating jacquard story that is unrivaled in its extraordinary structures. The interplay of these fabrics is truly fantastic and creates a particularly impressive effect when combined. The modern and irregular jacquard patterns are reminiscent of broken surfaces and are interpreted differently from viewer to viewer. The subtle lustre of Shine is reminiscent of the reflection on slightly revitalized water, which is further enhanced by the relief-like, broken-up structure of the surface. The tip-colouring effect gives the impression of a bubbly surface, which emphasizes the naturalness. The collection also includes Moss and Globe. The fabric width of over 300 cm enables high-quality finishing in hotels and on cruise ships. As environmentally conscious production is important to us, recycled polyester is used in the manufacture of our REFLECTION collection. Special colors are possible from a minimum quantity of 300 m.
